

That the FCC should not implement  
any proposal that would lessen  
Indiana's Telephone Privacy law  
protections.

I wish that the IN State Attorney General would implement  
this for mail and email also. My quality of life at home has  
improved and I do not get unwanted calls.

This is one of the best  
things that the IN State Attorney Gen  
has done. I now received NO unwanted calls.  
Sincerely, Gail Martin
